MEETING SPACE

NOPSI Hotel will feature approximately 14,000 square feet of function space. The hotel's ballroom, with huge arched windows and soaring 30-feet ceiling, epitomizes the historic significance of this public building. The renovation retains the room's 24-foot-high crane and tracks, which once transported transformers to storage vaults for repair.

It will become the city's premier venue for events, while richly appointed boardrooms with vaulted ceilings will also offer a popular destination for corporate meetings. Along with that there will also be five break-out rooms, a charming courtyard and a second-floor private dining room above Public Service featuring ceiling-to-floor windows.
